**Wright Implement Company, Inc.**  
526 State Road 28E  
Williamsport, IN 47993

## **WHY SHOULD YOU USE JOHN DEERE'S FUEL PROTECT IN YOUR SMALL ENGINES?**

Fuel sitting in gas tanks or gas containers for more than 30 days begins to degrade. Also, ethanol and water in gasoline can form acids that corrode your carburetor. Protect your investment... use John Deere fuel stabilizer with ethanol fighter and prevent hard starting, surging, lack of power, poor idle, flooding, and will not run or stay running conditions caused by poor quality fuel.

## **HOW IS WRIGHT IMPLEMENT GOING TO HELP PROTECT YOUR SMALL ENGINES FROM CORRODING CARBURETORS?**

When you schedule your service special with us, we will treat the gas in your tank with fuel protect, as well as give you the bottle of fuel protect to take home!

*Please present card  
upon service or mention  
this special offer when  
making appointment!*

**FREE PICKUP AND DELIVERY PLUS FREE  
FUEL PROTECT SAVES YOU OVER \$50!**
